

Dog food

Made by France

*The birthplace of gastronomy
with tradition and culture*

Rich in meat

*First ingredient of all recipes is
meat : up to 72% meat*

The key benefits in our recipes

What your dog or cat eats affects all aspects of his health and well-being. The BON APPETIT holistic diet is designed to not only treat your pet's hunger, but also help maintain their health and well-being by meeting all their nutritional needs.

Biologically suitable, it is made from high quality ingredients suitable for human consumption and is characterized by: several sources of good quality animal protein, vegetables and fruits, contains omega 3 and 6 essential fatty acids, probiotics and prebiotics, glucosamine and chondroitin.

**First ingredient
of all recipes
is meat**

**Hypoallergenic and
gluten-free food for
dogs and cats**

**Rice and fruit instead
of potatoes and peas
for better digestion**

**Olive oil:
the health advantage
of BON APPETIT**

**Ingredients of
European origin**

**High meat content:
up to 72%**

**9 antioxidants
to strengthen the
immune system**

**Essential fatty acids,
vitamins, minerals,
etc.**

**Our petfood is made
in France and Belgium**

Advantages

Healthy diet

Olive oil is powerful way to protect against degenerative disease. It is a rich source of monounsaturated fats, which reduce the risk of heart disease by decreasing levels of artery-clogging lipids in the blood. Additionally, olive oil is a rich source of polyphenols—powerful antioxidants that are increasingly attracting attention for their ability to promote good health.

Super 9 natural antioxidants

Natural antioxidants to **protect cells in the body from free radical damage** that can occur from exposure to certain chemicals, smoking, pollution, radiation. Our recipes are rich in natural antioxidants and therefore may be good for the heart health, may also help to lower risk of infections and some forms of cancer.

High content of meat : up to 72%

Proteins of animal origin are essential for our pets who are carnivore. They have structural role in bones, muscles, tendons, ligaments and skin, functional role: they are present in enzymes, hormones and antibodies and a higher biological value than plant-based proteins. Their amino acid profile is more complete and they promote a better digestibility.

Rice

Nothing better than rice for perfect digestion.

Many foods produce metabolic waste (some, such as purines, are toxic), the body must eliminate them at the cost of heavy stresses on organs such as liver and kidneys. However, rare in food, rice does not contain purines.

Energy & Vitality

Antarctic krill is rich of proteins. This small animal found in the Antarctic waters of the Southern Ocean is not concerned by heavy metals, neither antibiotic. It is a 100% natural and healthy supplement, rich source of protein. Contains a lot of iodine, sodium, potassium, magnesium, calcium. Rich in omega-3 EPA and DHA, beneficial for maintaining cardiovascular system, brain and nervous system, skin and joints. It is a powerful natural antioxidant with excellent bioavailability.

EPA DHA

Fish oils rich in essential fatty acids omega 3 and 6, strengthen the immune system and improve the heart system, help reduce the risk of allergies, increase the quality of the coat and promote general well-being.

No Gluten

Our recipes are gluten free they are free from wheat, rye, corn or any other derivative of these products to avoid the risk of food allergies.

Joints Prevention

Glucosamine and chondroitin may offer anti-inflammatory and pain-relieving benefits. They help build and repair cartilage that connects the joints. Marjoram is an anti-inflammatory herb and is known to relieve painful joints.

Top Vitamins

Grape seeds extract and lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid) **provide an important contribution of vitamin A, B and C, in addition to their antioxidant properties.** Essential elements for the good functioning of the organism: protection of the immune defenses and the cardiovascular system, prevention of the cancerous diseases, contribution in the manufacture of collagen.

PUPPY CHICKEN & RICE

72% Chicken
28% Vegetables & Fruits
0% Gluten

12KG & 2KG

Composition

Chicken meat 62%, rice, chicken fat 7% (with tocopherols), farm potatoes, fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley), chicken hydrolyzed protein 3%, beet pulp (source of betaine), brewer's yeast (natural vitamin B complex), fish oil from anchovy and sardine (rich in omega 3 and omega 6 fatty acid), sodium chloride, chicory roots extract (fructo-oligosaccharides), *saccharomyces cerevisiae* (mannan-oligosaccharides).

Analytical constituents

Crude protein 30%, crude fats 19,5%, crude fibre 2%, crude ash 6,5%, calcium 1,4%, phosphorus 0,9%, humidity 10%.

Metabolizable energy: 3800 kcal/kg

ADULT CHICKEN & RICE

68% Chicken
32% Vegetables & Fruits
0% Gluten

12KG & 2KG

Composition

Chicken meat 60%, rice, farm potatoes, chicken fat 5% (with tocopherols), fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley, sage), hydrolyzed chicken protein 3%, beet pulp (source of betaine), sodium chloride, brewer's yeast (natural vitamin B complex), fish oil from anchovy and sardine (rich in omega 3 and omega 6 fatty acid), calcium carbonate, chicory roots extract (fructo-oligosaccharides), *saccharomyces cerevisiae* (mannan-oligosaccharides).

Analytical constituents

Crude protein 27%, crude fats 17%, crude fibre 2%, crude ash 7%, calcium 1,5%, phosphorus 0,9%, humidity 10%.

Metabolizable energy: 3700 kcal/kg

ADULT LAMB & RICE

62% Lamb & Salmon
38% Vegetables & Fruits
0% Gluten

12KG & 2KG

Composition

Lamb meat 40%, rice, salmon meat 12% (natural source of EPA and DHA), fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley, sage), animal fat 7% (with tocopherols), farm potatoes, hydrolyzed animal protein 3%, beet pulp (source of betaine), brewer's yeast (natural vitamin B complex), sodium chloride, potassium chloride, chicory roots extract (fructo-oligosaccharides), *saccharomyces cerevisiae* (mannan-oligosaccharides).

Analytical constituents

Crude protein 27%, crude fats 17%, crude fibre 2%, crude ash 7,5%, calcium 1,6%, phosphorus 1%, humidity 10%.

Metabolizable energy: 3650 kcal/kg

ADULT MAXI CHICKEN & RICE

60% Chicken

40% Vegetables & Fruits

0% Gluten

12KG

Composition

Chicken meat 54%, rice, farm potatoes, chicken fat 3,5% (with tocopherols), hydrolyzed chicken protein 2,5%, fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley, sage), beet pulp (source of betaine), brewer's yeast (natural vitamin B complex), sodium chloride, calcium carbonate, chondroitin sulphate, glucosamine, chicory roots extract (fructo-oligosaccharides), saccharomyces cerevisiae (mannan-oligosaccharides).

Analytical constituents

Crude protein 26%, crude fats 13%, crude fibre 2,5%, crude ash 7%, calcium 1,5%, phosphorus 0,9%, humidity 10%.

Metabolizable energy: 3500 kcal/kg

ADULT MINI CHICKEN & RICE

70% Chicken

30% Vegetables & Fruits

0% Gluten

2KG & 400GR

Composition

Chicken meat 61%, rice, farm potatoes, chicken fat 6% (with tocopherols), hydrolyzed chicken protein 3%, fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley, sage), beet pulp (source of betaine), sodium chloride, brewer's yeast (natural vitamin B complex), chicory roots extract (fructo-oligosaccharides), saccharomyces cerevisiae (mannan-oligosaccharides).

Analytical constituents

Crude protein 29%, crude fats 19%, crude fibre 3%, crude ash 7%, calcium 1,5%, phosphorus 1%, humidity 10%.

Metabolizable energy: 3750 kcal/kg

LIGHT ADULT CHICKEN & RICE

55% Chicken

45% Vegetables & Fruits

0% Gluten

12KG & 2KG

Composition

Chicken meat 48%, rice, naked oats, fruits & vegetables & herbs (olive pulp (coenzyme Q10 source), green peas (natural source of iron), grape seeds extract (natural antioxidants), lemon pulp (natural vit. A and B), orange pulp (natural vit.C), grapefruit pulp and seeds extract (source of bioflavonoid), thyme, oregano, marjoram, parsley, sage), chicken fat 4% (with tocopherols), beet pulp (source of betaine), hydrolyzed chicken protein 3%, sodium chloride, brewer's yeast (natural vitamin B complex), potassium chloride, chondroitin sulphate, glucosamine, chicory roots extract (fructo-oligosaccharides), saccharomyces cerevisiae (mannan-oligosaccharides).

Analytical constituents

Crude protein 22%, crude fats 10%, crude fibre 3,5%, crude ash 6,5%, calcium 1,2%, phosphorus 0,8%, humidity 10%.

Metabolizable energy: 3300 kcal/kg
